DEAR, HIRING MANAGER

Thank you for your consideration of my application for Certified Flight Instructor. I am a recent graduate of the ATP Pilot Career Program at the Daytona Beach campus. Currently, I am living in Merritt Island, FL but I am open to all locations.

To say that I have a passion for aviation is an understatement. I've wanted to be a pilot since I was a young child. Initially, I thought my path to this career would be through the United States Air Force's SOAR program. I scored high on the ASVAB and it pointed me to aeronautical engineering. I graduated from high school with honors; I was on the right track. Sometimes, life happens even when the best plans are laid.

My maternal grandfather has been a constant source of support, love, and education throughout my life. In the summers, and every break from school, I would drive down to Cumming, GA from my home in the mountains to work with my "Gramp". He needed my help, and I needed the extra money. Towards the end of my high school career, I noticed that my Gramp was struggling to remember basic operations of tasks he'd done a million times. I was concerned. I postponed my plans to join the USAF and committed to helping my Gramp service his customers in the business he built for 30 plus years. He needed me and there was no way I was going to abandon him; he wasn't ready to retire. I put my future on hold and stayed by his side until he was ready to slow down.

I thought for a while that I'd never achieve my dream of becoming a pilot. I pursued other interests and opportunities, as reflected in my experience. Nothing felt like the right path. With the support of my parents, my grandparents, and the encouragement of my fiancée, I applied to ATP. I've worked hard in the program; I was even recognized in February 2021 as Student of the Month.

I am ready to fly and teach, and to share my passion for aviation with others on my way to a long-term career as a commercial pilot.

Sincerely,
Wade Allen

ABOUT WADE

Wade Allen is a recent graduate of ATP's Pilot Career Program; he's been described by his instructors and examiners as an excellent pilot with both an excellent grasp of aeronautics and a true passion for flying. Wade is 24 years old, engaged, and eager to begin his career as a Certified Flight Instructor and a commercial pilot. When not flying, Wade enjoys all things mechanical, spending time with friends and family, and exploring the 4-wheeling trails of his native home, the North Georgia mountains.

RECENT PROFESSIONAL EXPERIENCES

MECHANIC *Offroad Afterlife | Delta, PA | Jeep Used Parts Dealer*

An early love for Jeeps and off-roading granted me an informal but thorough education in the mechanics of vehicles of numerous makes and models. At Offroad Afterlife, I enjoyed stripping and parting Jeeps for fellow off-road enthusiasts, ultimately, I knew it wasn't a long-term career for me.

- April 2020 – September 2020
- Direct Supervisor: Tyler Harris: 484-614-2358

SURVEYOR *Patterson & Dewar Engineers | Norcross, GA | Electrical & Civil Engineering*

I began as a Field Technician with this Georgia Power Subcontractor. Traveled all over the state of Georgia to survey transmission lines. Became substation certified. This is very technical and interesting work. I didn't see a path for enough advancement to remain with the company.

- April 2018 – Dec 2020
- Direct Supervisor: Sean Lickey: 470-877-0172

DRIVER *Keith Shelnut Autosales | Blairsville, GA | Auto Sales*

Professional Driver: Vehicle Delivery, and Transport. Beginning in High School, and as needed. This local car lot in my hometown often obtains inventory from auctions and sells sitting inventory to other locales.

- PRN throughout 2016 - 2018
- Direct Supervisor: Keith Shelnut: 706-745-1004

PAST EXPERIENCE

HVAC TECH *Link's Home Repair | Cumming, GA | HVAC & Home Improvement*

From the time that I could carry a freon tank, I helped my grandfather in his long-standing HVAC and Home Improvement business. The primary service was the repair, replacement, and service of residential heating and air conditioning units. Along his side, I learned to diagnose, service, repair, and install HVAC units. I worked fulltime for my grandfather until I accepted the position at Patterson & Dewar.

IT SPECIALIST *Business Solutions | Hayesville, NC | Financial Services*

During my Junior and Senior year of High School I worked part-time for a local accounting and financial services firm as their inhouse IT Specialist. I have built numerous computers and am very proficient in computer science, hardware, network administration, diagnosis, repair, and maintenance.
